Dear Ms Grayson

**GENETICALLY MODIFIED ORGANISMS (CONTAINED USE) REGULATIONS 2014**

**SIGNIFICANT CHANGE**

Thank you for your notification to make a significant change to GM6/09.1a entitled "Investigation of *in vitro* and *in vivo* cellular processes of hazard group 2 bacterial pathogens clinically relevant in the UK".

The Competent Authority has no objection to the significant change.

This letter does not imply endorsement by the Competent Authority of any physical containment and associated safety precautions at your centre, or that the measures you have taken are sufficient to comply with the Regulations and other relevant legislation. HSE inspectors may have additional observations and requirements when conducting site inspections under the Health & Safety at Work etc. Act.

Regulations 14 and 15 require that the Competent Authority be kept informed of any changes to the notified details.

Yours sincerely

pp Dr Maria Taraktoglou  
Health & Safety Executive  
On behalf of the Competent Authority

Scottish Government
